Product Description

Custom Blue Oxford Durable Inflatable Arch for Event or games entrance

Inflatable arch is inflatable structure that is inflated by an external cold air inflation fan connected to the arch via a tube (also can be made into airtight style without inflation all the time). Inflatable arches are usually 3m to 15m long, usually used as entrances to events or as ad space and mile markers for races. Multiple design capability make the arch a very versatile component for multiple event and promotional initiatives. Some of the more popular designs include the tube arch and the block arch both of which can be further customized with 3 dimensional protrusions, digital printing and temporary banners.

Specifications:

Model No	King-ia042
Material	Nylon fabric
Color	customized
Dimension	8*6M or customized size
Accessories	blower, sandbag, rope, package bag
Power	220V 50Hz; 110V 60Hz
Warranty	2 years
Features	anti-tearing , Fir-resistant , strong and durable
Certificate	UL,CE, EN14960,EN71,SGS
Delivery time	7-10 days

- 1 Nylon product have less weight, it help to decrease the shipping freight. And it is also convenient and easy to use.
- 2 Our nylon product is waterproof, and it also can be commercial use.
- 3 Nylon material have less material cost, so it help you to decrease your budget.
- 4 It is easy to repair the broken parts.
- 5 Nylon production have less production time, so we can deliver goods on time..

FAQ:

Q: How to inflate an Inflatable Arch?

A: Can inflate with air by an electric air blower included. It usually takes 1 to 2 minutes to inflate an arch depending on design.

Q: Can we use Inflatable Arch in winds?

A: Yes, we make D rings and match ropes for you to tie for stability. You can also use sand bags or water bags to increase stability. However, please consider the arch as a balloon and use it depending on actual scene.

Q: Can we use Inflatable Arch in rain?

A: Yes but since the blower is connected with electricity, we don't suggest use under heavy rain although the arch material and blower plastic case are waterproof.

Q: Can make with our logo printings?

A: Yes. This is extra charged depending on quantity, printing colour and size (usually \$30 to US\$300). You may send us high resolution artwork in JPG, PDF or PSD.

Q: What happens if the Arch punctures?

A: Due to constant blown air, the arch can still be blown up and use as long as the damage area is not big. The damage can be repaired by sewing machine, and PVC vinyl arches can also simply be repaired by our repair kit (material patches and glue).

Q: Can you send me design sketch to confirm before production?

A: Yes. After you place an order, we can use your custom requirements to make a design sketch, and will start production after

your confirmation.
