#### Description:

1.All of our inflatables are constructed from materials that are lead-safe, the best material 0.9mm PVC Tarpaulin from Plato factory in China. We also use vinyl materials that are flame-retardant, large and small-scale tests. Do your homework before dealing with any inflatable manufacturer, and make sure they're not using cheaper materials that could be dangerous to children. We never cut corners with our products, and always strive to provide the safest environment possible, even if it costs a little more.

2.Our air-tight swimming pool is in good quality.All air-tight inflatable products are made by high temperature multi-function fusion splicer which is excellent for high efficient massive production and durable air-tight inflatable products.

3.There are circle swimming pool and square swimming pool.

The life of Circle swimming pool will be longer than square because of the stress of uniform.

if you need square swimming pool, you'd better to choose Octagonal pool for the uniformly forced to increase the service life of pool.

4.Besides, our design is the bottom of pool is connected with the middle of pipe, which is to prevent water inside the gap and crack, also is good for cleaning.

#### Application:

The inflatable swimming pool use for the amusement park with the water toys,like the water ball.Now many squares have the commercial project,and it attracted more kids to play.The inflatable swimming pool is good for rental business or personal commercial event,ticket event.The Inflatable swimming pool can play with walking ball and other water toys,and we also sell the water toys,like water ball,walking ball,ect.,it is a good time with children at the weekend.So it is good for the amusement park or your personal use in your backyard.Good time with your children.
