Quick details:

1. This water walking ball is a right product which needs to be inflated by air pump only one time.
2. Its material is 1.0mm PVC Tarpauline which from Plato factory.
3. The water ball is with durable zipper from Germany, very good quality and water proof.
4. Normally size 2M diameter is suitable for 1 adult and 1 kid to play together.
5. It takes about 1-2mins to inflate the water ball.

Applications:

Water ball, also known as water walking ball, walk-on-water ball, aquasphere, inflatable sphere or Wow ball is a large inflatable sphere that allows a human occupant to 'walk on water.' The acronym WOW is now being more commonly used for Walk On Water as in WOW Spheres and Wowballs. The water ball is similar to a Zorb, but it has only one layer / skin and is designed for water travel rather than down-hill rolling. The giant ball usually 2m has a zippered entrance to allow for easy entry and exit. It stores flat weighs 15 kg and can be inflated in under 1 minute with a good air pump. Some models also have hand grips on the inside, while others can be printed with company logo.

Advantages:

1. Custom Designs available for logo printings, strings, handles, harness, entrance, buckles, valves, etc.
2. Material: Durable PVC or TPU, 0.8mm or 1.0mm thickness. Abrasion Resistance, Outstanding Flexibility, Lead free, Waterproof, Fireproof, Waterproof.
3. Professional Machines for Cutting, Welding and Printing to ensure high quality.
4. Certificate & Standards: CE, UL, ASTM, EN14960, EN71, NFPA 701 No Lead, Fire Retardant
5. Each product includes a Repair Kit (Material Patches and Glue). But glue (liquid) is prohibited to ship by air or express
