Quick details:

- 1.We used ommercial grade fabric reinforced 0.8mm PVC Tarpaulin or 1.0mm PVC Tarpaulin or 1.0 TPU, ideally suited for water ball. It l is the finest commercial grade fabric re-inforced PVC available, Lead free and eco-friendly. All water games are used high strength and durable, waterproof and fireproof.
- 2.All the water games handles is more beautiful, the most important its the glue will not be overflow, as the mold for gule brushing is the same as the punching mold. And it can hold 120-150kg
- 3.We use high quality zipper from Germany which is water proof .
4. Our air valve use the best one, good inflation and deflation, no air leak .
5. How to use the water ball? Use lubricant for zip to open the polymer water ball easily.Enter inside the Water Walking Ball (1 or 2 at most) and blow it up. Close the zip and it's ready.

Applications:

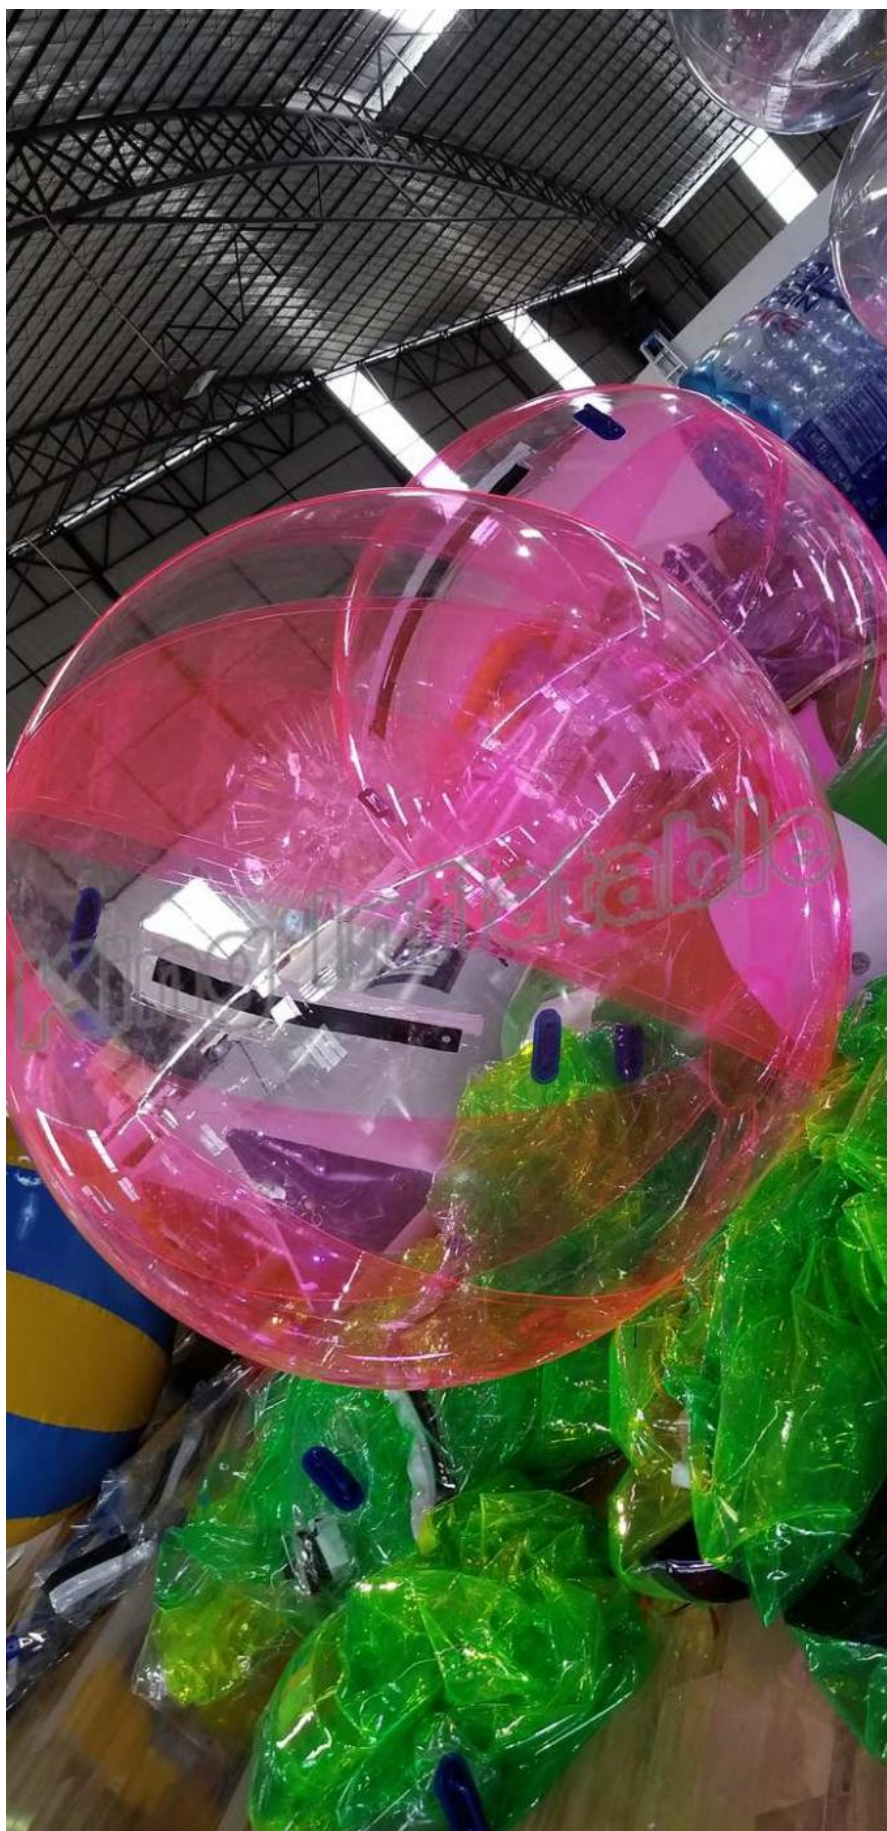

A water ball or water walking ball is a large inflatable sphere that allows a person inside it to walk across the surface of a body of water. The giant ball is usually two metres in diameter and has a zippered entrance to allow for easy entry and exit. The water ball is similar to the zorb, but it has only one layer and is designed for water travel rather than down-hill rolling. In the United Kingdom, the balls have been used at swimming pools, marinas and lakes in an effort to keep children fit.

Service:

Quality problem when customer receive the item.

1. 24 hours service online
