#### Workmanship

##### 1. Double Stitch Everywhere:

We double stitch everywhere,with fourfold stitching at bottom stress point.

##### 2. Reinforced Strips at Joints and Corners:

We make reinforce strips at the bottom joint and each corner to make sure 100% safety.

##### 3.Professional Mchine:

We use high quality professional inflatable sewing and weld machines,which special in sewing 180z Vinyl.At the same time,we use 12 lines high strength bundy line to construct each inflatable products.

##### 4. Durable Zipper:

Strong zipper at bottom of each inflatable,which help you to deflate the bouncer more quickly.Each zip equipped with zipper cover.

##### 5.SAFE AND CONVENIENT AIR FLAP:

For the safety,we make safe flap inside the air tube,when the electricity. cut off and make the blower off suddenly,the flap will help stop the air let out too quickly. So the kids can have enough time to leave the inflatable.

#### Using Method:

- 1.Kindly connect the item with blower when playing inflatable water totters.
- 2.Pls ensure the player do not take any sharp-edged things when playing in the inflatable water totters.
- 3.Before use water seasaw, it is better to have a cushion pad under the product in order to avoid damage to the product.
- 4.Put the inflatable water totters at cool place when not used, do not put it together with keen-edged things.

#### Quality Control:

- 1.We test each water park for 1 day to ensure inflatable water totters seamed exactly well.
- 2.We provide the glue and material pieces for repairing in case.
- 3.We shall guide you to repair the damaged part during all the life span of inflatable water totters.
- 4.In case inflatable water totters was broken due to quality problem in one year, we will make compensation for it accordingly.
