Digital cutting machine:

Automatically cutting.Perfectly cutting instead of traditional handwork.

Sewing machine:

We double stitching outside part and quadruple stitching the reinforce jointing part with 9-strands non-rotten yarn,ensure the quality,reliability and durability of our inflatables.Four to five stitching per inch.

High definition digital printing machine:

High definition digital printing, cover liquid film which import from U.S.After air dry,it become shine and attractiveMost importantly,the color could be protected by the film even if rain or tear.

China First class welding machines:

Perfectly welding each part of the inflatable products,the air sealed inflatable products(inflatable air sealed tents and inflatable water parks) would not air leak.Once our air sealed inflatable inflated by air pump,it could keep inflation more than one month.

One Stop Service

We can offer necessary accessories for installing a park such relief valve, bungee cord, sand bags, rope ect.

Workmanship

1) Reinforcement.

We make reinforcements at every weak points like welding seams, inside baffles, conner,ect.

2) Durable anchor ring.

For anchor ring, we use 316 stainless steel material which last longer than other metal in water.

3) Durable parts.

All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.

4) Stable Connection System.

Original eyelet connection and anchor ring connection system which make the whole park very stable.
