Payment	T/T, Western Union, Cash
Certification	CE, EN14960, SGS, ASTM, UL, ROHS
Advantages	low cost, good quality, fast delivery time
Warranty	1 years

Our Workmanship:

1. We add reinforcement strips for all our products, so the items have good airtightness and more durable.
2. We install high quality air relief valve made in on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon.
3. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
4. Stable Connection System created originally eyelet connection system and anchor ring connection system which make the whole park very stable.

Our advantages:

Digital cutting machine:

Automatically cutting. Perfectly cutting instead of traditional handwork.

Sewing machine:

We double stitching outside part and quadruple stitching the reinforce jointing part with 9-strands non-rotten yarn, ensure the quality, reliability and durability of our inflatables. Four to five stitching per inch.

High definition digital printing machine:

High definition digital printing, cover liquid film which import from U.S. After air dry, it become shine and attractive. Most importantly, the color could be protected by the film even if rain or tear.

China First class welding machines:

Perfectly welding each part of the inflatable products, the air sealed inflatable products (inflatable air sealed tents and inflatable water parks) would not air leak. Once our air sealed inflatable inflated by air pump, it could keep inflation more than one month.

Order Step:

- Step one----Confirm all details and send PI to you.
 Step two-----No problem with PI, pay 50% deposit to us.
 Step three----Confirm your design sketch, then we make bulk production.
 Step four-----Customer confirms the final products.
 Step five-----Pay the balance and we send out your package.
 Last but not least-----Let us know your feedback after you get your parcels. So that we can do better for our long term cooperation.
