#### Details :

1. All our materials are purchased from Plato factory , Wibit special material -- Wibit 0.9mm PVC Tarpaulin , more expensive than general 0.9mm PVC Tarpaulin . We can send you some materials for your testing .
2. Intalling reducing pressure valve . When your temperature is very high to some extent , this reducing presure valve will make the product deflated automatically , in case of the product would blast because of the high temperature .
3. Welded strongly with high temperature machine and some exprienced workers . Besides , reinforced a extra strip on all seams , stronger and more durable.
4. Strong D rings and handles , it is very difficult to tear them off .

#### Our Factory:

1. All water games are produced that conform to CE, UL, EN71, EN14960, ASTM-F963, HR4040 standard.
2. High-strength PVC tarpaulin, with punction-proof, lead-free, flame-retardant material.
3. One stop amusement solution, no matter inflatable or fiberglass games, we all can provide it for you.
4. If you don't have an idea for the games, please tell us the size of your ground, we will design it for you.
5. Any sizes, any colours, any shapes, any designs are available.
6. 2 Year warranty against material defect and workmanship.
