#### Our advantage:

1. Best commercial 0.4mm PVC tarpaulin. Good material is very important for inflatable tent. Our inflatable tents are made from high durability fire-retardant 0.4mm PVC tarpaulin, which has 3 layers, two PVC coated sides with a strong net fabric inside. And the material has passed EN71-2-3, RoHS and SGS test.
2. Double stitching throughout the unit with triple stitching.
3. Quadruple stitching in key areas inside the base of the unit
4. Extra webbing reinforced strip on all the stress points and interior panels
5. We test each product for 3 days to ensure the inflatable product seamed exactly well.
6. We provide repair kit for free, which including material and mucilage for repairing in case.
7. We will guide you to repair the product and make compensation for them accordingly

#### FAQ:

Q1: If we can make products according to the dimensions those clients provide?

A1: we have standard sizes, also we support customized made. so you can choose our standard sizes or choose size as your wanted.

Q2: what kind of printing do we use?

A2: We suggest heat transfer printing, also we can use Hot Stamping, Printing, Embossing, UV Coating, Silk-screen Printing or Sticker.

Q3: Can you print my picture or logo on the products?

A3: Yes, we can print your picture or logo on the inflatable products, and you can offer the pictures in any format made by photoshop or CoreDraw and PDF.

Q4: Can you design one specially?

A4: Yes. Please send us details and a sketch or a picture of your requirements and we will quote you our best prices.

Q5: how fast is the delivery?

A5: for tents, usually 5-10 days. For customized products or new products, we need some more time, about 10-15 days.

Q5: How long is the warranty?

A5: one year. Of course sometimes we will depend on the actual situations.
