## Product Description

### Air Tight Sealed 6m Inflatable Party Tent With Side Walls For Rental Business

#### Specification:

This 6m x 6m x 4m inflatable tent is airtight system, we usually use 0.6mm or 0.9mm PVC Tarpaulin to produce it. Generally, the tube part is made of 0.9mm PVC Tarpaulin as it is a support frame of the whole tent, the cover part is made of 0.6mm PVC Tarpaulin, as it is lighter than 0.9mm, which won't bring a big heavy stress to the support frame of the tent. Besides, the thickness of PVC Tarpaulin also has 0.4mm, 0.45mm, 0.55mm, 0.6mm and 0.9mm. Don't worry, this PVC Tarpaulin is very strong, itself contains 3 layers, double sides coated with a strong net inside. You only need to inflate it once by air pump connecting electricity. It can be used for camping or advertising etc. Pls noted any sizes and colors can be customized, you also can print your logo.

|               |   |
|---------------|---|
| Product Name  | Inflatable Spider Tent  |

#### Advantages:

- 1, strong and nice welds
- 2, no electricity required
- 3, full colors are available
- 4, can print logos, banners or artworks
- 5, durable, 5-8years usage life span
- 6, cheap, max 10-20% value than a stone/steel building
- 7, safe, no injury or hurt to people
- 8, easy assemble, move, put it away, in different occasions,
- 9, once broken, it's easy to repair, get it fixed and working again.

#### FAQ:

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on design.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please use depending on actual scene.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless upgrade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.

Q: Can you send me design sketch to confirm before production?

A: Yes. After you place an order, we can use your custom requirements to make a design sketch, and will start production after your confirmation.
