## Product Description

### 39.4ft\*19.7ft PVC Tarpaulin White Rectangle Inflatable Tents For Wedding Party

#### Descriptions:

This tent is Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent. It is water proof and fire resistant, can be used in the rainy and sunny days. There are 2 valves for inflating and fast deflating, it will take about 10mins to inflate it with two pumps, within 2mins to deflate it. Also will send many D rings, so you could put it around the bottom and top as anchors with rope to tie a weigh, in case of strong wind to blow it away. Inside can be with hooks for hanging something, lights or small things. Please note: If under the sun, must not inflate it 100% full, because the air inside would expand to make all the joints too big pressure to stand. 90-95% full is the best. In the night, the air would become cold, and cold contract, the tent will become soft, but it's ok, it can stand it self.
