Advantage	It's very convenient to have this workstation to be moveable to different place as for auto hail repair work. Very easy to set up by one person, to use blower, it can be inflate up within mins. And deflation also very simple, cut off the electrical, then the tent can be deflate and wrap up. So it really a portable workstation, very smart mobile office. The tent color and printing can be customized according to client's request.
Customized	Customer design; size; color; LOGO; Theme etc
Accessory	CE/UL electric air blower; Storage bag; Repair kts

Why choice us:

Material: high durability Oxford or PVC tarpaulin, water proof, fire retardant and UV resistance, which has 3 layers, two coated side with a strong net inside. The fire retardant meet BS7837. Our material has been certified by the SGS.

Workmanship: All seams are double stitched (triple to quadrupled stitched in sensitive parts). Strong reinforcement on all high stress points

Easy to set up and take down: inflate about 5-8 minutes, depend on the size. Each product will have strong tie down systems (D-ring or circle ring) to make sure it steady enough. Long fill tube (5') so blower can be placed farther away from the slide.

Package: We spread air out to help deflation before roll the tent, then put a band belt outside to tie it. We will use tarpaulin bag which is same material as the tent to package the units. So the packages will not be frazzled during delivery process. For big units, we will make extra handle band outside of the packages. In order to let you find your goods quickly, we will paste a mark paper with your order number.

Deflation: We make enough air out zipper for each game according to the requirement of EN14960. So they can help you deflate the inflatable quickly. We do reinforcement for all the zipper joints, and above the zipper, there is a zipper cover by velcro material which is help to disperse the zipper's stress. We may also make a inside PVC piece to protect the zipper.

FAQ:

Q: How long does it take to inflate and deflate your tent?
