#### Detailed description:

The inflatable square swimming pool is made of 0.6mm or 0.9mm Plato PVC which is very durable, waterproof, eco-friendly, has no chemical toxic gas in high temperature to hurt kids. All of the material we selected the top grade material to ensure long use life.

The inflatable square swimming pool used in amusement park, public garden, leisure center, outdoor campaign, and so on.

#### Installation of inflatable Product

1. Place the equipment on a flat surface, preferably under a piece of equipment (such as carpet, plastic color of the cloth), and then expand it.
2. Find the air inlet of the equipment, connect with the air outlet of the blower or air pump, and fasten it, then tighten the air inlet with a rope.
3. Turn on the blower and the item will blow up in 5-10 minutes.

#### Maintenance of equipment

1. Cut off the power, open the interface and exhaust, exhausting in generally 10-25 minutes, the remaining gas to squeeze. If the equipment was wet by rain water, please be sure to drain water out and dry.
2. Do some cleaning. You can use the detergent to wash it, and wipe with water, and then dry in the sun.
3. Fold the device, and cover it with a tarp.
4. If long time no use it, you should keep it clean and packaged. Storage temperature is generally -50 ~ +40 degrees Celsius is appropriate.
5. Blower or air pump should prevent from moisture and corrosion. Inflatable items should keep away from insect.

#### Advantages:

##### 1. Workmanship

All our workers are with top skill in inflatable field, all of our stitching inflatables are stitched by high precision stitching machine, we always apply double stitching anywhere in the inflatables and quadruple stitching in positions sustaining much force and pressure from jumping. All of our airtight inflatables are made with high temperature multifunctional welding machine, which is necessary and efficient for massive airtight inflatables.

##### 2. Product Material

Top quality material are always applied on our inflatables, and all of them are from one of the best material suppliers in China - Plato chemical

##### 3. Package

Not only do we focus on our products quality themselves, but also we pay attention to other details like packing these years; Based on our years experience, we always provide our customers the best packing like following so it can provide much convenience & save much time for customers later, and even it can avoid wrong delivery or damage from port careless or wrong operation.
