Descriptions:

The Inflatable Water Slide With Pool is produced by King Inflatable which has specialized inflatable field for 7 years, we have approved CE / EN14960 certificates, assure top quality, pretty competitive price.

The Inflatable Water Slide With Pool of 0.55mm Plato PVC which is very durable, waterproof, eco-friendly, has no chemical toxic gas in high temperature to hurt kids. All of the material we selected the top grade material to ensure long use life.

The Inflatable Water Slide With Pool is HEAVY DUTY. It has triple-thread seams with an additional glue seam for max durability and no chance of water seeping inside.

Advantages:

1. Completely assurance
Our structures work with good sewing technic, they are 100% strong. They require the constant use of an electric compressor, and therefore need to be connected to an electric socket or to a generator.
2. Easy of Use
About one minute to inflate our modules with a CE/UL pump. This time is greatly reduced by the use of 1100W electric pump. It is of course possible to inflate them in the traditional way, by using a mains voltage pump. Our products eliminate problems with interlocking tents together, creating multiple rooms and any problems with assembly instructions.
3. Safety of use increased
Our structures do not have rigid element. This ensures the best security for present material assets and people.
4. Price isnegotiated, much more reasonable and pretty competitive
5. Double-stitched reinforced seams and jump surface,anchor and D-rings to keep stability and safety under use
