- 7, once broken, it's easy to repair, get it fixed and working again.
- 8, come with pump , glue and spare material.

FAQ:

Q: Why TPU more expensive than PVC?

A: TPU is better than PVC mainly by following features:

- 1). excellent abrasion resistance
- 2). outstanding low-temperature performance
- 3). excellent mechanical properties, combined with a rubber-like elasticity
- 4). very good tear strength
- 5). high elasticity& transparency
- 6). good oil and grease resistance
- 7). more mycete-proof

Q: What happens if the ball punctures?

A: The damage can easily be repaired with repair kit (material patches and glue).

Q: Will players get injured inside a Water Roller?

A: No. This is one of the safest fitness activities in the world, because you are safely protected by an air ball.

Q: How to inflate Water Rollers?

A: The balls are inflated with air by an electric air pump. It takes minutes to inflate a ball.
