Descriptions:

The material we use for this kind of boat is 0.6 or 0.9mm pvc tarpaulin from the best plato company ,high durability and fire-retardant which can meet SGS standard.Except the best material,our workmanship is also excellent :first,it is a seal job by imported hot air welding machine,which has stable welding temperature so that the item will not be over welded or less welded ,it will be done very durable.Second,the connections(crosses) is possible to get loose,but we will use many reinforce strips to make it strong and will double cover the joints to fromk leak.The last,our technical worker is really has rich experience.There are D-rings at the back for you to use ropes to connect to a motorboat.

Advantages:

1. Durable Material with EN71 certification.Top quality material are always applied on our inflatables,all of them are made from the best material suppliers in China-Plato chemical;all of the material meet EN71 certification.

2. Computerized automatic cutting system

Base on the perfect design,the raw material of our inflatable are cut out by computerized automatic cutting system which can ensure the perfect shape of each products.

3. Well experienced heat welding machine and perfect welding work.All of our air sealed inflatables are made with high temperature multifunctional welding machine,which is necessary and efficient for massive air-sealed inflatables,such as inflatable fly fish boat,inflatable water games,zorb seires,swimming pools,air-sealed inflatable tents and so on.

4. Good comments from international customers & rafting enthusiasts.

5.We add reinforcement strips at the welding seams of the big tubes, so the boat has good airtightness and more durable.

FAQ:

1. Can you design one specially?

Give us an idea, we can offer the design of inflatable games like inflatable arch, advertising inflatables, activities for customers' project.
