More details:

We focus on our design and production. Safety is our Mission. All the products are designed for your special requirements. More than 2000 different designs are available for you to choose.

Our main material is heavy duty commercial grade pvc tarpaulin purchased from Plato which is the best raw material company in this field with high durability ,UV-treated, fire retardant, water-proof & passed SGS certificate and Ripstop oxford fabric, strong & water-proof.

accessory: Powerful air pump with CE/UL certificates , repair kit, scraper, glue(if it can be shipped). Different voltage will suit your usage in different countries. 110V/120V/220V/230V/240V. 50HZ/60HZ. British Plug/ Australian Plug/American Plug.

packing and shipping: Not only do we focus on our products quality, but also we pay attention to other details like packing. Based on our rich experience, we always provide our customers the best packing so that it is much convenience & save much time for customers, and even it can avoid wrong delivery or damage from port careless or wrong operation.

Our advantage of inflatable water games:

We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.

Material: We use best 0.9mm PVC tarpaulin for water games.

the best material is very important for the games. All inflatable games of Topfun are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.

Hot welding machine: For the sealed water game, it is very important for the welding well. We have advanced welding machine and the best workers in inflatable industry.

Printing: Digital print, silk print, or hand painting. The high level painting makes Topfun product will not be sticky and color fade, but sustain a long time. And it print quickly and in good quality. Further more, we make a liquid protecting film on the surface of digital printing.

Quality Excellent: We use high quality Plato PVC materials. We double and when requested, can quadruple stitch for added strength. We can add reinforcement by using seat belt fabric on the bouncing surfaces and on corner joints.

FAQ:

Q: Can you design one specially?

A: Yes, send us details and a sketch or a picture of your requirements, then we will do it for you.

Q. How long will it take to make any of these inflatable military/relief/army tents if they are not in stock?

The regular inflatable military /relief tent usually take 3-5 days, And if you want to make more orders can take anywhere from 10-15 days. Custom made orders take about 10-30 days, depending on the quantity, size and structure.

Q. What is your Standard of producing?

CE, EN14960, EN 71, ISO9001, SGS.

Q. About transport costs.

Transportation costs are calculated according to your address

Q: What kind of guarantee you give?

A: 1 year limited warranty. It's long distance to ship goods back, so we send repair kit for every inflatable product. If it is damaged, you can use repair kit (glue and same color material) to mend it, and we are happy to guide you through if there's any problem.
