Description :

1. Transparent PVC material : Its fixed width is generally 1.2m , Its thickness is 1.0mm ; it can be waterproof and strong ,the light transmission is very good , suitable for outdoor party ,exhibition ,meeting or others
2. Workmanship : 1) It is airtight type , hot welded by high frequency machine ; 2) It is double layers , there are a lot of strong ropes connecting D rings on two sides to form a air layer ,about 3500 D rings ; 3) Installing some D rings at the roof and the bottom of outside the tent as an anchor to fixed it to the floor , The inner also needs to install some D rings to hang LED lights ; 4) reinforce welding at the joint part
3. This tent is airtight type , It only need to be inflated one time by using 1 pc air pump connecting electricity , then it can keep about 10 days .
4. For package , we pack it in a roll and put it into a PVC bag ,1 pc air pump are packed in the carton ; For shipping , If you only need buy one and want it urgently , shipping by express or air (only arrive at the airport) is the best choice , If you choose by express , you can get it directly at your address , it takes about 5-7 days ; If you choose by air , cheaper than by express , But you have to go to airport and pick up the goods . if you don't need it urgently and need more products, shipping by sea is best choice , DDP shipping , you also can get it at home , no any extra charges , but it takes about 30 days at least .
5. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue
6. OEM is accepted , Different sizes, colors, logo can be customized according to your needs .

Applications:

This transparent tent is airtight type , not continuous , you don't need to make it inflated , only blow it up one time , then it can keep a long time , some customers buy it as a meeting , some as a party , some as a exhibition or other events . It is with a very good light transmission , you can install some LED lights inside the tent , When you open light in the evening , It looks very beautiful and nice . We believe you must like it very much . Any needs , Pls don't hesitate to contact us .

Advantages:

1. Cheap price based on good quality
2. Careful and best workmanship
3. High quality and best after-sale service
4. Strong and durable material
5. on-time delivery and safe shippment
6. OEM is accepted and welcome to inquire at any time
7. Approval CE , EN71 ,ROHS , EN14960
8. Very safe , no hurt to people , plastic material not steel
9. Easy assemble , connecting air pump and valve
10. A good light transmission ,very beautiful

FAQ:

Question 1. What are the differences between sewn inflatable items and sealed items?

Answer: Inflatable sewn items need constant blowing. The Sealed items is processed by heat welding technology and only need one time blow up. Usually sewn items are lower costs than Sealed items.

Question 2. Can I have custom design with personal company logo?

Answer: For all our inflatables, the customized logo is available. And we will confirm the design with you before production, so you will surely get what you want for actual use, just offer us picture in any format made by PDF or Adobe Illustrator

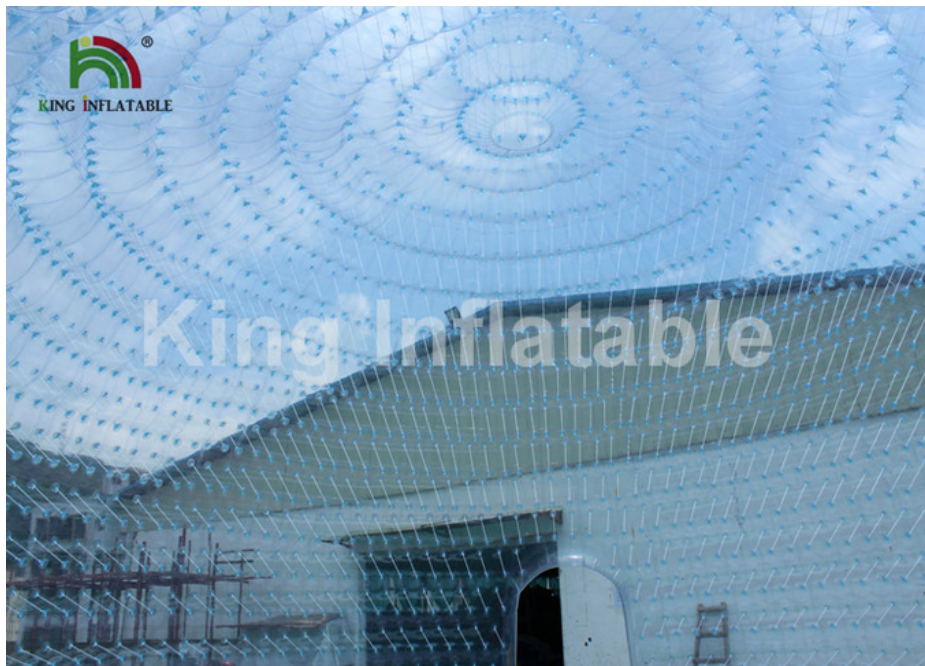

Question 3. What material??

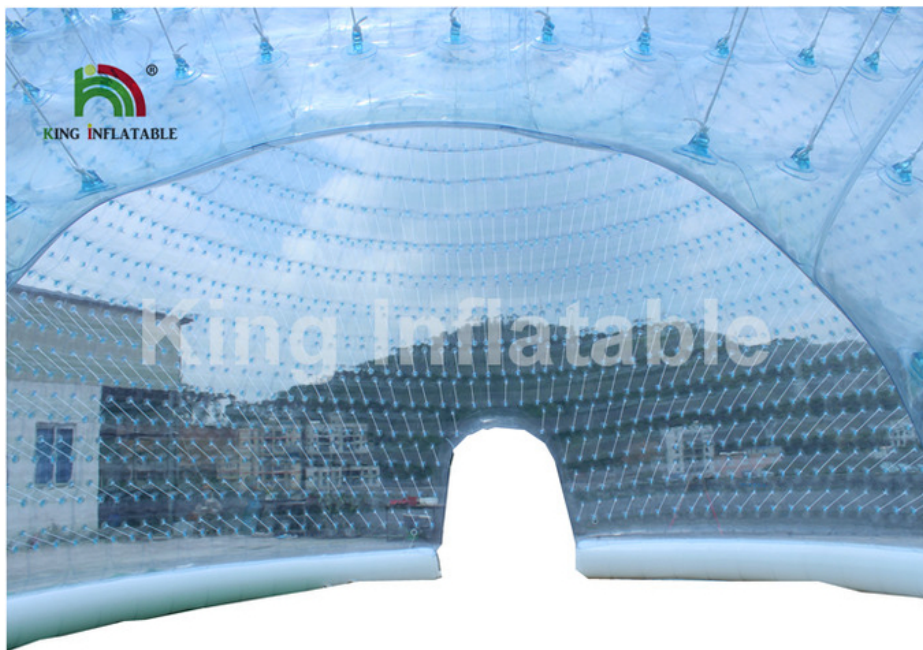

Answer: Inflatable games are made by PVC Tarpaulin. The Flame Retardant is suitable for EN71

Question 4. How long will it take to produce?

Answer: It all depends, large quantity will need more time. We will get started with the design once received the deposit. After the design is confirmed, we will arrange the production. Usually, the production will take about 2-3 weeks. (Exception for urgent order)
