#### Our advantage:

1. We add reinforcement strips for all our tents, so the items will be more durable.
2. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
- 3). The product is low cost, easy and convenient to install and move. It is available in various great designs and a wide selection of bright colors.
- 4). We are a manufacturer of inflatable products, including tent, inflatable decoration, Christmas inflatable models, pneumatic boat, airfilled toys, air mattress, inflatable aircraft, advertising, pleasure toys, fire ballon, recreational facilities, air dancers, etc.
- 5). Customers from USA , UK, Australia, Vietnam, Japan, etc have already established agreeable and mutual benefit business relationship with us and highly appreciated our professional service.

#### FAQ:

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on design.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please use depending on actual scene.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless upgrade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.

Q: What happens if the Tent punctures?

A: Due to constant blown air, the tent can still be blown up and use as long as the damage area is not big. The damage can be repaired by sewing machine, and PVC vinyl tents can also simply be repaired by our repair kit (material patches and glue).

Q: Can you send me design sketch to confirm before production?

A: Yes. After you place an order, we can use your custom requirements to make a design sketch, and will start production after your confirmation.
