Descriptions:

With hot summer temperatures there is nothing more fun than playing with water. In the summer this is the attraction that makes a big impression. You can slide non-stop on this beach slide course with a beach theme, because the course is constantly under pressure. It is even possible to move two people at the same time, because the course is extra wide and no less than 18 meters long. Connecting the garden hose, large run-up.... and just slide!
Easily set up the course within 15 minutes. For example during a event or sports day. A good and especially continuous water supply is very important with a belly slide. A tip is to use soap, this makes sliding even faster. A removable cloth has been used for this belly slide with beach theme, so that the incoming water will be reduced. This also has a positive effect on the lifespan of the track. The 18 meter long inflatable course with beach theme is easy to transport due to the compact rolled up format. The cushion comes with 2 blowers, anchoring material, a transport bag and a clear manual. Everything complete for a great experience.

Quality and guarantee:

King Inflatable have been reinforced and stitched on several points and are made of strong, high-quality PVC. They are therefore durable and easy to keep clean. The course is also supplied by King Inflatable with a 2-year warranty. Because of this you deliver years of optimal playing pleasure with this product.
Buy this cool belly slide and give your customers the day of their lives!

Details :

- 1. Plato 0.45mm PVC Tarpaulin :**
