Descriptions:

This product is a amazing inflatable water amusement park for adults and kids. Three large swimming pools with S slides and lotus, frogs made it multi-fun what will attract you and your kids. I'm sure you will establish a close relationship with your kids through play with them in the wonderful water park.

Our company have experienced designer for customer's individual requirements. Logo can be printed as your requirement; other colors and material are also available upon request. Our staff full day service for you with profession and patient.

Workmanship:

Reinforcement	We make reinforcements at every weak points like welding seams, inside baffles, connect.
Durable anchor ring	For anchor ring, we use 316 stainless steel material which last longer than other metal in water
Durable parts	All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
Stable Connection System	Bouncia created originally eyelet connection system and anchor ring connection system which make the whole park very stable.

Our advantage of inflatable water games:

- 1) We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.
- 2) Material: We use best 0.65-0.9mm PVC tarpaulin for water games. the best material is very important for the games. All inflatable games are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.
- 3) Hot welding machine: For the sealed water game, it is very important for the welding well. We have advanced welding machine and the best workers in inflatable industry.
- 4) Printing: Digital print, silk print, or hand painting. The high level painting makes our product will not be sticky and color fade, but sustain a long time. And it print quickly and in good quality. Further more, we make a liquid protecting film on the surface of digital printing.
- 5) Quality Excellent :
 - We use high quality Plato PVC materials.
 - We double and when requested, can quadruple stitch for added strength.
 - We can add reinforcement by using seat belt fabric on the bouncing surfaces and on corner joints.
