Product Description:

- 1,Safety: With guaranteed safety, the people can rest assured when they visit the project show in airtight inflatable tent.
- 2,Design: The inflatable tent can be designed as your preference.It is innovative, excited, and safe, together with a super outer-look.
- 3,Usage: Rental business, exhibit shows,projections, parties and advertising events.
- 4,Blower: The included blower motor provides constant air support for endless function action and makes the function resistant to small tears and punctures.
- 5,Instruction: Set up and enjoyment lasts for years due to the strong structure.

Workmanship:

For airtight /sealed air /welded inflatable tents

we use best PVC tarpaulin 0.65mm/0.9mm and hot air welded, the PVC tarpaulin is waterproof, flame resistance, lead free, anti-UV and anti-aging.

For sewed/stitched inflatable tents

we use best PVC tarpaulin 0.25mm/0.35mm/0.45mm/0.55mm or lightweight ripstop nylon material. The PVC tarpaulin and ripstop nylon material both is waterproof, flame resistance, lead free, anti-UV and anti-aging.

- * Strong stainless anchor points provides safety, stability and rigidity to the inflatable tent outdoor. We also can make internal lighting hooks based on your needs.
- * Safe zipper flaps for quick deflation or sandbags, the zipper flaps can be made internal or external, with velcro covering
- * We supply good quality blower motors and air pumps for inflation, correct plug for customer's power input.

FAQ:

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on design and size.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please correct fixture depending on actual situation.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless upgrade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.
