Quality control	1. Have our own professional factory designer. 2. Best quality of PVC tarpaulin or oxford which is water-proof and fire retardant, also environmental and safe. 3. Double stitching throughout the unit with triple stitching. 4. Quadruple stitching in key areas inside the base of the unit.

#### Descriptions:

- 1, Water proof and fire resistant, can be used in the rainy and sunny days.
- 2, Many D rings around the bottom and top as anchors with rope to tie a weigh, in case of strong wind to blow it away.
- 3, Inside with hooks for hanging something, air condition cable, lights or small things, each hook for  $\geq 10$ kgs, top no more than 50kgs.
- 4, If under the sun, must not inflate it 100% full, because the air inside would expand to make all the joints too big pressure to stand. 90-95% full is the best. In the night, the air would become cold, and cold contract, the tent will become soft, but it's ok, it can stand it self.
- 5, Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent.

#### Where used for:

outdoor event, party, club, performance, amusement park, rental business

#### Abouts us:

Guangzhou King Inflatables company established in 2002 as one of the leading inflatable manufacturers have been producing various inflatable products and exporting to USA and European countries. Our company have had many customers and earned a good reputation for the best quality and services in the world market.

We adopt double or triple needle stitching technique. We use hand paint and digital printing for the pictures and use no-toxic paint. Our products pass EN14960 and CE/UL certificate, also PVC material pass SGS, EN71, 3P Test Report.
