Product instructions:

Inflatable buildings can be extremely useful at events. An inflatable building can be much quicker and easier than assembling a large tent. The inflatable nature of the buildings also makes them several degrees warmer than the outside temperature in cold conditions, or they can cool a hot area. In extremes of climate they can provide much better working environments to increase productivity. We can custom make any inflatable building to suit your requirements.

Inflatable tent is very convenient and flexible which is widely used as inflatable party tent, inflatable event tent, inflatable advertising tent, inflatable sports tent, inflatable exhibition tent, inflatable wedding tent, inflatable warehouse tent, rest room tent and so on. Our inflatable building is very easy to be installed and take down to move around, it is much cheaper than solid building. Also our inflatable tent can be very beautiful, you can install lights inside to make it be a prismatic lighting tent. Inflatable air tent can be made any size as you need, for example, we can make party tent to hold from tens of people to thousands of people. All of our inflatable marquee is very safe, even if the tent is broken by accident, it will fall down very slowly, so people inside have enough time to get out, and also you can repair it by yourself easily.

Specifications:

Model number:	king-it043
