Descriptions:

This kind of products most for outdoor group inflatable water park for amusement. It has multi theme which will attract all ages of adults and kids! It is usually combined with inflatable slide, water toys, obstacle course and water pool. It includes slides, trampoline, obstacle, rock climbing, lifeguard tower, walking rollers etc. It is very suitable for rental, you can get a factory price and recover your cost very quickly.

People can choose their like projects, you can glide, jump, climb, contest when you play in the water park, what an amazing park for amusement! Together with your family members or friends, let's enjoy happy time in the inflatable water park!

All our materials of this product are purchased from Plato factory, Wubit special material -- Wubit 0.9mm PVC Tarpaulin, more expensive than general 0.9mm PVC Tarpaulin. We can send you some materials for your testing. Installing reducing pressure valve, when the temperature is upping high to extent in case of the product tend to blast this reducing pressure valve will make the product deflated automatically. Welded strongly with high temperature machine and some experienced workers to ensure it is durable, strong and anti-leaking. Besides, an extra strip on all seams will be reinforced to get a better quality. Strong D rings and handles, it is very difficult to tear them off.

Our advantage of inflatable water park:

- 1) We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.
- 2) Material: We use best 0.9mm PVC tarpaulin for water games. The best material is very important for the games. All inflatable water park are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meets BS7837. Our material has improved by the SGS.
- 3) Hot welding machine: For the sealed water game, it is very important for the welding well. We have advanced welding machine and the best workers in inflatable industry.
- 4) Printing: Digital print, silk print, or hand painting. The high level painting makes our products will not be sticky and color fade, but sustain a long time. And it prints quickly and in good quality. Furthermore, we make a liquid protecting film on the surface of digital printing.
- 5) Quality Excellent :
 - We use high quality Plato PVC materials.
 - We double and when requested, can quadruple stitch for added strength.
 - We can add reinforcement by using seat belt fabric on the bouncing surfaces and on corner joints.

Packaging & Shipping:

1. For the finished product, we packed with strong PVC tarpaulin (same to the products).

The PVC tarpaulin bag is durable enough to bear the impact during shipment. In order to you can find your products quickly, the PVC bags are printed with uniform logo.

Remark: You can choose to print your logo on the package too. What you need to do is to send us your picture. And then we will finish it as your request.

2. Blower or air pump are packed by PVC bag or carton which is suitable for shipment, also been marked outside, so that you can find them quickly and correctly. Different countries have 110V/220V voltage, and different plugs, it will be much appreciated if you can tell us what plug you want, or we will provide the plug your country uses.
