FAQ:

Did it can resist strong wind ?

Yes, at first the big tent weight is heavy, it is not easy to blow down or blow away. Meanwhile there are many D-rings on the bottom and top for fixture. Another hand our product design meet the gas flow mechanics.

How to set up?

Spread out the tent, and find the blower mouth. connect blower and blower mouth, turn on the blower. Then it will be set up fast. of course, if need, we also can supply video or site guide help you to set up.

Can we use Inflatable Tent in rain?

Yes but since the blower is connected with electricity (unless upgrade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Can make with our logo printings?

Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.
