Product descriptions:

Inflatable event tent is a new and popular products, and with the other advantages such as good appearance, bright color, much cheaper than concrete buildings, moved around easily and conveniently, so it will attract people's interest, and it will be a perfect eye catching product for you.

Inflatable event tent includes the following characters.

- 1, Water proof, anti-UV and fire resistant, can be used in the rainy and sunny days. White proof can reflect most of sunlight and heat, cool down the inside.
- 2, Many D rings around the bottom and top as anchors with rope to tie a weight, in case of strong wind to blow it away.
- 4, Inside with hooks for hanging something, air condition cable, lights or small things, each hook for ≥ 10 kg, top no more than 50kg.
- 5, If under the sun, must not inflate it 100% full, because the air inside would expand to make all the joints too big pressure to stand. 90-95% full is the best. In the night, the temperature would turn low, and cold contract, the tent will become soft, but it's ok, it can stand it self.
- 6, Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent.

Why choice us:

Professional free design custom-made to your needs

Premium quality and service recognized by our customers.

Trade assurance and low-risk policy to guarantee your trade safety.

New products released every season to optimize your buying experience.

Excellent after-sale service to make sure of your satisfaction.

D ring ,Wind ring. There are many D-rings on the surface and the bottom of the tent, we can use the strings connect with the stakes or the sandbags to make the tent more stable, avoid being blown down by the wind.

Our factory can supply you various kinds of tents, like cube tent, dome tent, lunar tent, bubble tent; or event tent, wedding tent, party tent, tennis tent, paintball tents, medical tent, military tents, etc.

FAQ:

1 Is it fire retardant ?

Yes ,our material is fire retardant and waterproof, if you have other special request, such as resist UV, Meet NFPA 701 standard etc. It also okay for us and we will purchase material accordingly, but price will more expensive.

2 Did it can resist strong wind ?

Yes, at first the big tent weight is heavy, not easy to blow down or blow away. Meanwhile there are many D-ring on the bottom and top for you to fix. Next our design meet the gas flow mechanics

3 The size is big /same, not suitable for me. could we can customize?

It is no problem. It can be customized according to your requirements, such as size, logo, color, printing etc. Of course, if you do not like the style please send your ideas to us, then we will design a new 3D model to you according to your ideas.

4 could I ship it by myself / Could you can help us to ship?

Yes. If you have forwarding agent in China, we will assist your agent to ship. If you have no forwarding agent, we can help you to ship. The best ship way is by sea, transportation time about 15-40 days according to different country. If urgent, by air is okay.
