Product detail descriptions:

King inflatable is a specialized manufacturer in inflatable industry. We own factory nearby Baiyun International Airport, Our products have been sold to more than 70 countries all over the world. We use 0.9mm commercial grade reinforced PVC tarpaulin (Waterproof & flame resistance) to make all the water games with hot-air machine. And we will make the size and colors according to your requirements.

Inflatable water park is a new combined inflatable game which is usually combined with inflatable slide, water pool and water toys. People can swim or play water toys in the water pool to have fun in water, as well you can climb to the slides by the steps then you can glide all the way down with water, very fun and exciting! Inflatable aquatic park suits for both of adults and children, adults can swim in the big water pool and children can play the equipped water toys in pool like water ball, water boat, bumper boat, water totter, water roller and so on.

This product is sea animal theme, it has a wonderful color and shape! Look, a happy octopus on the top is warmly welcoming you to play. Two dolphins Along side the slide, gliding together with you, how vivid real sea life is it! Its color full of tropic taste, feels so cool!

Product applications:

Inflatable water park can be widely used as summer water park , River,pool and water game parks, sunshine paradise amusement water park , for outdoor use , outdoor entertainment , backyard fun , festivals and carnivals , schools and daycares , churches and youth groups,corporate picnics and functions, grand openings and promotions , family use rental or resell business. and so on...

Maintanace menthod:

- 1.if the product appear small damage , under 5 cm , can be repaired by glue.
- 2.if the damage area is larger , please select a needle to thread-stitching , then repaired by glue ; or select professional factory maintenance.
- 3.clean the damage with clear water , dry with clear dishcloth , blow a bit.
- 4.use the material of the same color to repair , cutting a patches , the area size need larger than the damage area.
- 5.cover the damage by patches , and mark surrounding the patches.
- 6.glue on the patches coated with a thin layer , note is not glue as thick as possible.
- 7.toated with a thin layer of glue inside the loop , be carefully not to gule out the loop .

8. after a few minutes, aligning patches with the damage, establish.
