#### Maintenance method and the attentions:

1. if the product appear small damage, under 5 cm, can be repaired by glue.
2. if the damage area is larger, please select a needle to thread-stitching, then repaired by glue; or select professional factory for maintenance.
3. clean the damage with clear water, dry with clear dishcloth, blow to dry completely.
4. use the material of the same color to repair, cutting a patches, the area size need larger than the damage area.
5. cover the damage by patches, and mark surrounding the patches.
6. glue on the patches coated with a thin layer, note is not glue as thick as possible.
7. coated with a thin layer of glue inside the loop, be carefully not to gule out the loop.
8. after a few minutes, aligning patches with the damage, stablish.
9. in the process of paste, slightly with blower, heating, make pasting more firmly.
10. if bubbles appeared in the process of pasting, can use hair dryer heating, meanwhile, use flat thing to move out the gas.

#### Product applications:

Inflatable water park can be widely used as summer water park, River, pool and water game parks, sunshine paradise amusement water park, for outdoor use, outdoor entertainment, backyard fun, festivals and carnivals, schools and daycares, churches and youth groups, corporate picnics and functions, grand openings and promotions, family use rental or resell business. and so on.

#### Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles, corners, connects etc.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
- 4) Stable Connection System. Bouncia created originally eyelet connection system and anchor ring connection system which make the whole park very stable.
