Descriptions:

1. As we know , all the water products are airtight type, so this small water pool with triple pipes is also airtight product. Once you inflated it, then it can keep about 15 days for normal use. AS they are heat sealed by high frequency machine, don't worry, the workmanship is very good, strong sealing, what's more, reinforce a strip at the connecting place between the bottom material and the tubes, to bear a very big stress from water in the pool, besides, for the connecting side on the tube , we usually use one extra material to seal it again, to make the tube enough strong. Another is constant blowing type, you need to inflate it constantly, It is very fast to be set up and taken down, but it is for inflatable bouncy castle, water slide and some advertising inflatables.

2. You know ,PVC Tarpaulin has 3 layers ,with double coated side with a strong net inside, It can be waterproof and fire-retardant with CE, EN 14960, SGS, EN71, ROHS certificated, good quality and durable. Its thickness is generally 0.4/0.45mm , 0.55mm , 0.6mm and 0.9mm, For inflatable swimming pool, we usually use 0.65/0.9mm, durable and best material from plato. You know, best material is very important for all the inflatable products, don't worry, all the materials we use are durable and best material.

3. In order to fix the pool to the ground, we will install enough D shaped rings on the tube, you can use some strong ropes to fix it, to make it enough steady, besides, we use 0.65/0.9mm PVC Tarpaulin, the weight is very heavy, so it is very difficult to blow it away.

4. For inflate and deflate , you can find valve on the pool and connect the valve with air pump, meanwhile, connecting air pump and electricity power, turn on the power of air pump, then it can be inflated with 2 minutes. For deflate, turn valve in opposite, let the air out, it can be deflated about 5-8 minutes.

5. In order to keep the water in the pool clean, if you need, we also can add a piece of covering cloth over the water, when you don't use the pool, you can put the covering cloth over the water by using ropes connecting D rings on the tube, in this way, the water is still clean.

6. For Inflatable swimming pool, any sizes, shapes, colors, logo can be customized according to your needs. You know, all our products are OEM. Besides, Before the production, our designers will make a 3D design draw for your confirmation, it will be produced according to your demands, with best workmanship.

7. For shipping, If you only buy one piece, shipping by express is the best choice, you can get it at home within 10 days, our production time is about 2 days, the shipping time is about 5 day. If you want buy 2 pieces, shipping by sea DDP or DDU is the best choice, you also can get it at home. If you buy more than 2 pieces, shipping by sea CIF is the best choice.

8. Generally, the round pool is better than the square pool , because the round one can bear a bigger stress from water for the water stress is balanced.

9. If you have any needs about inflatable swimming pool, pls tell us the size, shape,color, logo, we will offer a very competitive

price based on good quality. You are always welcome to visit our company website and our factory. We hope we can build a long term cooperation relationship with you .

Application :

This small pool can be used as outdoor bathtub for kids play in the backyard. You also can buy many small pools from factory, and sell them at your local, it is a very good business.

Advantage:

1. OEM accepted, any shapes, sizes, colors ,logo can be customized.
2. Cheap price and good quality.
3. Very strong and safe.
4. Long life, at least 3 years life span.
5. Digital printing and perfect artwork.
6. the pool can bear a bigger stress from water.
7. High durability and best material, 0.65/0.9mm PVC Tarpaulin.
8. Easy to repair, only need spare material and glue.
9. Welding by high frequency machine, it will not have over or miss sealed.
10. Best before-sale and after-sale service.
11. On-time delivery and safe shipment.
12. Fixed by using ropes connecting D rings, enough steady.
