Product descriptions:

Inflatable event tent is a new and popular products, and with the other advantages such as good appearance, bright color, much cheaper than concrete buildings, moved around easily and conveniently, so it will attract people's interest, and it will be a perfect eye catching product for you.

Especially for this one, it has a perfect eye-catched bright color, and it includes the following characters.

- 1, Water proof, anti-UV and fire resistant, can be used in the rainy and sunny days. White proof can reflect most of sunlight and heat, cool down the inside.
- 2, Many D rings around the bottom and top as anchors with rope to tie a weight, in case of strong wind to blow it away.
- 4, Inside with hooks for hanging something, air condition cable, lights or small things, each hook for ≥ 10 kg, top no more than 50kgs.
- 5, If under the sun, must not inflate it 100% full, because the air inside would expand to make all the joints too big pressure to stand. 90-95% full is the best. In the night, the temperature would turn low, and cold contract, the tent will become soft, but it's ok, it can stand it self.
- 6, Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent.

Design and Material Selection

We focus on our design and production. Safety is our Mission. All the products are designed for your special requirements. More than 2000 different designs are available for you to choice.
