It is made from 0.9mm Plato PVC tarpaulin which is the best material company with the best material for inflatables, so it is enough strong, durable and anti-aging under correct use, maintain and store.

King inflatable is a specialized manufacturer in inflatable industry. We own factory nearby Baiyun International Airport, Our products have been sold to more than 70 countries all over the world. We use 0.9mm commercial grade reinforced PVC tarpaulin(Waterproof&flame resistance) to make all the water games with hot-air machine. And we will make the size and colors according to your requirements.

This product has following outstanding characters will attract you!

1. 0.9mm PVC Tarpaulin :

Its thickness has 0.4mm , 0.45mm , 0.55mm . 0.6mm and 0.9mm , this set of water park is airtight system , we usually use 0.9mm in thickness , best quality. PVC Tarpaulin itself contains 3 layers , double sides coated with a strong net inside , it is so strong that you can't tear it off .

2. Warranty : This inflatable water park will be guaranteed for 2-3 years, in this warranty period , If there are any workmanship quality problems, we would take full responsibility for getting it re-worked, if failed, we promise to make a new one for you .

3. 35x21m inflatable water park : It contains 21 pieces in total . We send you 4 air pumps for free .

4. System : This Inflatable Water Park is airtight system , it means that it only needs to be inflated one time with air pump connecting electricity .

5. All our products are OEM . Different model , size , color , logo can be customized .

Our advantages:

1. We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.

2. Material: We use best 0.9mm tarpaulin for water games.

the best material is very important for the games. All inflatable games are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.

3. High quality and low price

A brand rich experience on OEM services, Similar quality as famous brand but only 1/4 price. We reduce cost of customer for make you get the competitive price and take back your cost quickly.

4. Custom made & OEM/ODM services

Customized your water park as your ideal, we can provide design team free 3D drawing to you. We have more than 100 kinds different size and theme water park that you can compare and choose the target product

5. Customer care

We would be honest to be a reliable partner and friend with you for a long time relationship. We can offer necessary accessories for installing the water park, such as vest, sand bags, rope, bungee cord, repair kits. So you don't need to worry about how to repair and where to buy the accessories.

Applications :

This set of water park can be placed in the sea, lake or pool and can hold about 80 people . Its size and color can be changed based on original design . Even you can design the model you like .

Packaging & Shipping:

1. For the finished product, we will pack with strong PVC tarpaulin (same to the products).

The PVC tarpaulin bag is durable enough to bear the impact during shipment. In order for you to find your products quickly, we print our company's logo on outside of PVC carry bag.

2. Blowers or air pumps will choose suitable package for shipment, PVC bag and carton for optional, also will be printed outside, so that you can find them quickly and correctly.

3. Different countries have different voltage and corresponding plugs, it will much appreciated if you can tell us the voltage and plugs in your country in advance.
