Product Description

Customized Rainbow Inflatable Event Tent 4m Colorful Oxford For Commercial

The tent is designed in rainbow colors, red, orange, yellow, green and blue. It's very bright, let a person at a distance can see. The material is oxford fabric, which has good light penetration. We use double-needle sewing, is firm and durable. If customer has a preferred color, it can be chosen by the customer. This product needs to be blown all the time. If customer thinks it is better to inflate once for a long time, it can also be customized.

Specifications:

Size	8*4*4m or customized
Material	420D oxford cloth
Color	Rainbow color or customized color
Workmanship	double and quadruple stitching by lead free heavy duty thread or Heat welding with high temperature machine
Blower	680w
Usage	1. Promotion; advertising; celebration; wedding; exhibition; trading fair etc. 2. Entertainment and leisure for children and adults; outdoor and indoor activities; 3. temporary shelters for emergency incidents: building relief of earthquake and other incidents
Safety	the inflatable tent will support on 5-10 minutes while power off.
Advantage	It's very convenient to have this workstation to be moveable to different place as for auto hail repair work. Very easy to set up by one person, to use blower, it can be inflated up within mins. And deflation also very simple, cut off the electrical, then the tent can be deflated and wrapped up. So it really is a portable workstation, very smart mobile office. The tent color and printing can be customized according to client's request.
Accessory	CE/UL electric air blower ; Storage bag ; Repair kits
MOQ	1 pc
Payment	50% deposit and 50% balance
Delivery time	7-10 days

Advantage:

1. The company has established more than 7 years, it has very professional experience at inflatable model industry.
2. Material: high durability Oxford or PVC tarpaulin, water proof, fire retardant and UV resistance, which has 3 layers, two coated side with a strong net inside. The fire retardant meets BS7837. Our material has been certified by the SGS.
3. Easy to set up and take down: inflate about 5-8 minutes, depend on the size. Each product will have strong tie down systems (D-ring or circle ring) to make sure it's steady enough. Long fill tube (5') so blower can be placed farther away from the slide.
4. Workmanship: All seams are double stitched (triple to quadruple stitched in sensitive parts). Strong reinforcement on all high stress points.
5. Package: We spread air out to help deflation before roll the tent, then put a band belt outside to tie it. We will use tarpaulin bag which is same material as the tent to package the units. So the packages will not be frizzled during delivery process. For big units, we will make extra handle band outside of the packages. In order to let you find your goods quickly, we will paste a mark paper with your order number.
6. Deflation: We make enough air out zipper for each game according to the requirement of EN14960. So they can help you deflate the inflatable quickly. We do reinforcement for all the zipper joints, and above the zipper, there is a zipper cover by velcro material which is help to disperse the zipper's stress. We may also make a inside PVC piece to protect the zipper.

FAQ:

- 1: How long does it take to inflate and deflate your tent?
