## Product Description

### 2.4mL\*2.4mW\*2.5m H Transparent Airtight Outdoor Inflatable Camping Bubble Tent

#### Quick Details :

The size of this product is 2.4m by 2.5m by 2.5m (excluding the blue pool at the bottom). The material is 0.65mm PVC tarpaulin and 0.8mm PVC. This product is transparent and air - tight and requires an air pump to blow. Can be used for outdoor camping, party and so on. The size and color of products can be customized according to the needs of customers. We use express delivery to transport this product, which can be quickly sent to you for use.

This product is transparent, without any stain affecting the appearance. Our workmanship is so advanced that the surface can be kept smooth. Inflation cannot be too full, so the raw material has the property of thermal expansion and cold contraction, too full inflation will lead to product damage. The bottom is a piece of black PVC tarpaulin. The color and thickness can be changed according to customer needs. The tent entrance is connected by a German zipper.

#### Descriptions:

**1.** As for this bubble tent , It is made of 0.8mm clear PVC, You know , all our materials are purchased from best supplier , Plato factory , good quality and durable . PVC can be waterproof and strong ,the light transmission is very good , suitable for outdoor party ,exhibition ,meeting or others , besides , you also can choose other colors , such as green , red , yellow , purple, blue , with CE,EN14960,SGS,EN71,ROHS certificates .

**2.** As for this bubble tent , It is airtight type , you only need to inflate it one time by using air pump connecting electricity .

**3. Workmanship :** 1) It is noncontinuous / airtight type , Welding hot air by high frequency machine ; 2) As it is double layers ,with many strong ropes connecting D rings on two sides to form a air layer ,about 6500 D rings ; 3) In order to make it stable and safe , we usually Install some D rings at the roof and the bottom of outside the tent as an anchor to fixed it to the floor , The inner also needs to install some D rings to hang LED lights ; 4) reinforce welding at the joint part

**4.** As for fixing the bubble tent to the ground , we will install enough D shaped rings at the top and bottom of the tent , you can use some ropes to fix it , to make it enough steady . Besides , don't worry . It is very heavy , so it is difficult to blow it away .

**5.** As for shipping , If you need it urgently , by express is good choice , If you don't need it urgently , by sea is very good . For package , we usually make a bag with PVC tarpaulin , then put the bubble tent in the bag .

**6.** As for payment , we have TT , western union , moneygram and paypal , generally , we receive 50% deposit and we will arrange the production , when finished , we will take some photos for your confirmation , if it is okay , you can pay the balance and we will ship it out .

**7.** For Inflating , you only need connet air pump with valve and turn on the air pump , then it can be inflated within 10 minutes . For deflating , you need to open the valve to make it deflated . .

**8.** Dear friend , if you are interested in this bubble tent , pls let us know the size , color , logo you need , so that we can offer a good price , thank you .
