These inflatable snow globes come in all sizes and can be designed for your promotion of a product or a little interactive fun. inflatable snow globes fairs can be used on holidays, carnivals, special events, commercial email, and a ton more holiday festivities.

Human Snow Globe will add Christmas cheer to your yard this holiday season.

Bring the spirit of Christmas to your yard with this classic scene that embodies the holidays. This Snow Globe manufactured of weather resistant PVC tarpaulin material allows for multiple season of use. Get festival and get fun without spending tons of time or money with our special HomCom holiday display.

Structure of inflatable snow globe for photo taking:

There are two parts, the front section, or main globe, is where people can see, and behind the curtain/backdrop is the actual air chamber and is the transitional space where customers enter and exit from. Once the entry point is secured, customers enter the main globe through a special zipped door on the backdrop.

As classic human snow globe, the main globe is easily deflate when people enter in, in order avoid the problem, we updated the globe to add one airtight tube connected the ball

#### Descriptions:

**1. Workmanship :** This bubble tent is made up of one snow ball and one airtight base , welded strongly by high frequency machine . The snow ball is constant blowing type , it needs to be inflated constantly by blower connecting electricity , so that people can stay inside for a long time . the base is airtight type , it only needs to be inflated one time by air pump connecting electricity , so that it can stand a very big weight. The snow ball hangs a piece of printing backdrop , to make a Christmas snow ball .

**2. As for bubble tent with airtight base,** the white part is made of 0.6mm PVC Tarpaulin , which is waterproof , fire-retardant and UV resistant , its fixed width is 2.1m . the transparent part is made of 0.8mm PVC , which has a very good light transmission and can be waterproof , its fixed width is generally 1.2m , we usually use the thickness 0.8mm and 1.0mm ;These two kinds of materials have many colors , you can choose what you like . Don't worry , all our material are purchased from plato factory , very strong and durable , with CE , EN71 , EN14960 , Rohs certificates .

**3. In order to make it inflated ,** you can connect air pump with valve on the base , to blow the base up first as it is airtight type , then use blower to connect the blower tube on the snow ball , to set it up and stay constant blowing as the snow ball is constant blower type .

**4. In order to make it fixed to the ground ,** we will install some D rings at the bottom of the base, to let you use some ropes to fix it , make it enough stable .

**5. In order to pack it ,** we will make a carry bag first , then roll the product up on a roll and put it away into the carry bag , it is very easy .

6. In order to shipp the goods better ,by express is good choice if you only need one , Of course , If you want more than 3 pieces , shipping by sea is good choice .The shipping way mainly depends on your demands .

7. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue

8. As for payment , we have TT , western union , moneygram and paypal , generally , we receive 50% deposit and we will arrange the production , when finished , we will take some photos for your confirmation , if it is okay , you can pay the balance and we will ship it out .

9. Dear friend , if you are interested in this bubble tent with two tunnel , pls let us know the size , color , logo you need , so that we can offer a good price , thank you .
