Installation

1. Place the equipment on the flat ground, it is best to put a pad of cloth (such as felt, plastic ribbon cloth) under the equipment, and then expand it.
2. Find the air inlet of the equipment, then connect with the fan outlet, and fasten the fan port, and then fasten the spare air inlet with rope.
3. Turn on the blower and the equipment will be bulging in 5 / 10 minutes.

Descriptions:

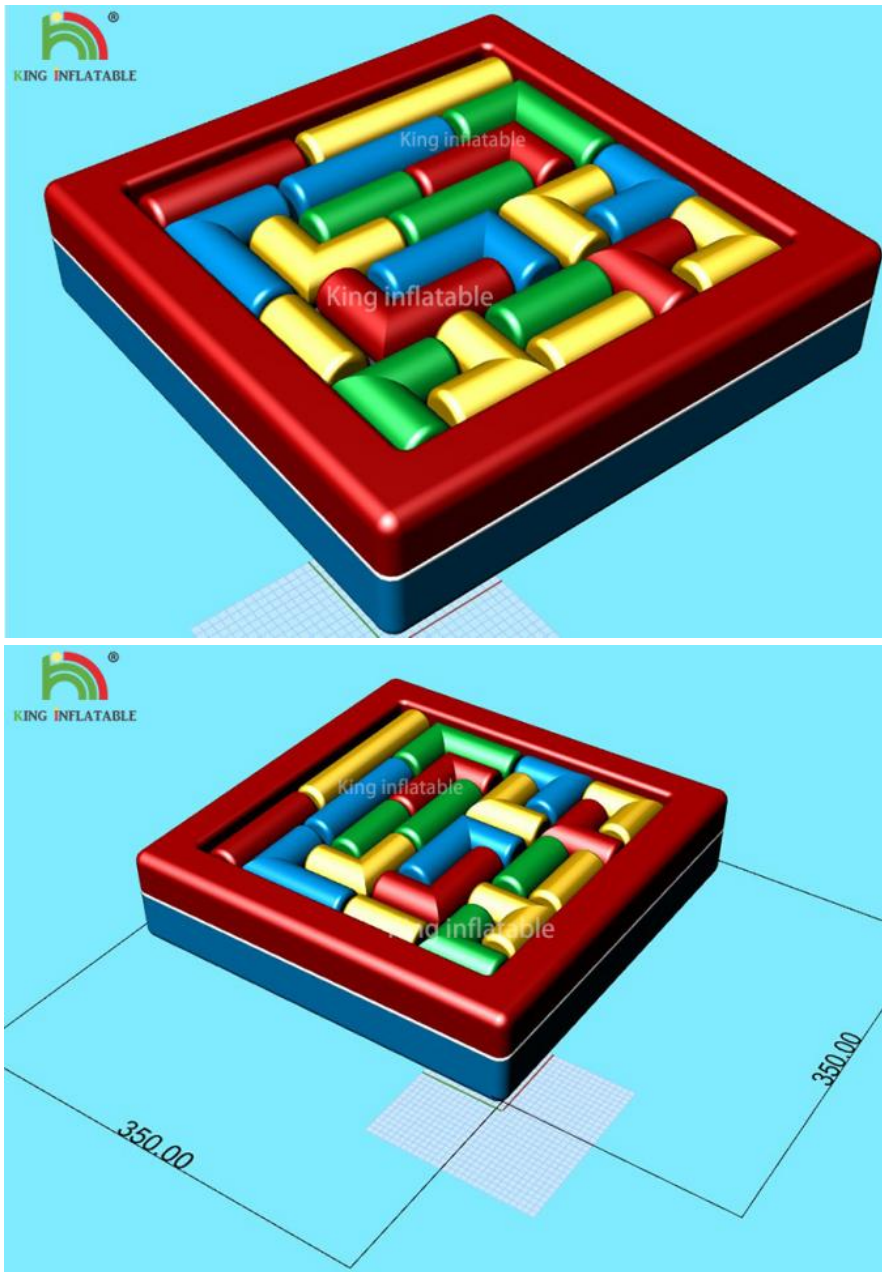

1. Workmanship :double stitching with fourfold stitching at the bottom stress point , double stitching inside and double stitching outside , to make sure that it is strong enough and can stand a very big stress . Besides , we also reinforce strips at the joints , so you don't need to worry about the safety at all , the bottom can bear the kids no matter how they play on the castle .

2. Material :Our factory always use real and best materials, PVC Tarpaulin , purchased from Plato factory , which has 3 layers ,with double coated side with a strong net inside , It can be waterproof and fire-retardant , with CE, EN14960, SGS, EN71, ROHS certificates , good quality and durable .You know , best material is very important for all the inflatable products , good quality and durable , use 3 years at least , 24 hours working all the time , it is not a problem .

3. Type:constant blowing type , you need to inflate it constantly by using blower connecting electricity , It is very fast to be put up and taken down . For all the inflatable castles , they are constant blowing type , with a very good bounce .

4. Inflating: you can connect the blower and the blower tube , then turn on the electricity power , the castle can be inflated ,about 2-3 minutes . For deflating , you only need to turn off the power , it can be deflated within 2-3 minutes . Besides , we also make a strong zipper at the bottom of the castle , you open the zipper , which can help you deflate it more quickly . Above the zipper , there is a zipper cover , which is help to disperse the zipper's stress .

5. Before the production , our designers will make a 3D design picture for your confirmation , it will be produced according to your demands , with best workmanship .
6. If you have any needs about this castle, pls tell us the size , color , logo , we will offer a very competitive price based on good quality . You are always welcome to visit our company website and our factory . We hope we can build a long term cooperation relationship with you .
7. In order to fix the castle to the ground , we will install enough D shaped rings at the top and bottom , you can use some strong ropes to fix it , to make it enough steady , besides , this castle is very heavy , it is impossible to blow it away .
8. For the safety , we usually make safe flap inside the air tube , when the electricity is cut off and make the blower off suddenly , the flap will help to stop the air let out too quickly , so that the kids have enough time to leave the castle
9. For shipping , our cpmpany has specialized shipping company , safe and fast . Of course , if you have own agent / forwarder in China , pls tell us . If you only want one piece , shipping by express is the best choice ; If you want to buy many castles , shipping by sea is the best choice .
