Our inflatable medical tent advantage:

1. Easy & convenient to install & Short installation time, install by 2~3 people, inflate by air pump, 7.55*5.6*3m size took about 15 minutes to complete the construction, one time inflate can last for 15~60 days, until you inflate it again (depend on your local weather situation)
2. Removable and easy to carry;
3. With PVC tarpaulin bottom and 50cm PVC tarpaulin baffle to prevent rainwater from flowing in
4. Good ventilation, with 4 windows and 2 doors made by mesh and PVC tarpaulin
5. Good windproof effect, 16pcs D ring and fitting system can be resistant to 7 winds
6. Lighting system, inside with D ring and Velcro to cover wires of lighting, also has D ring for hanging goods use
7. Support customized services, color, logo, design and so on.
8. Waterproof, fire and UV resistance made by best Plato PVC tarpaulin material

FAQ:

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on design.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please use depending on actual scene.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless grade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

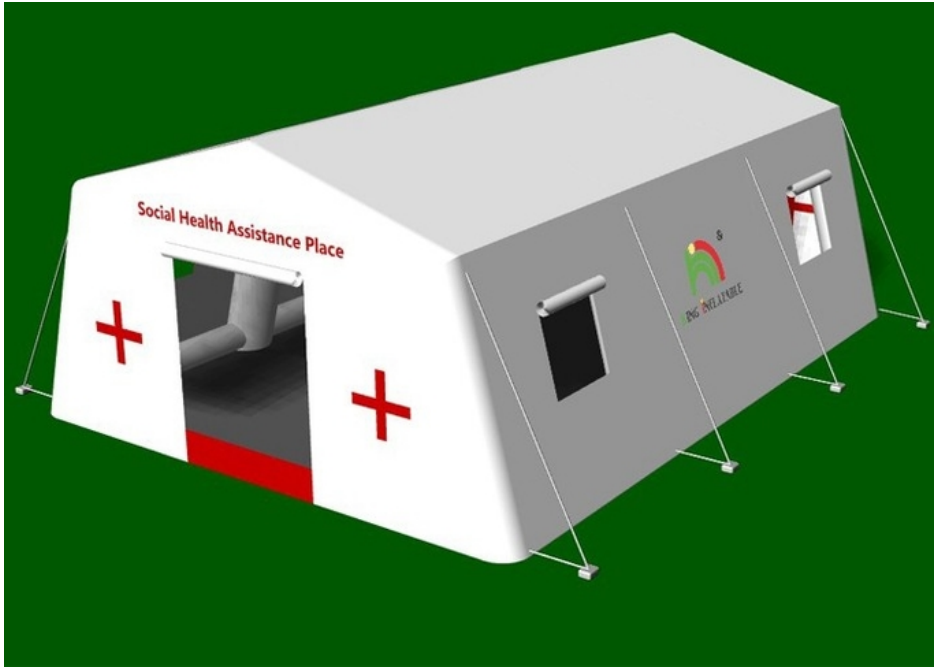

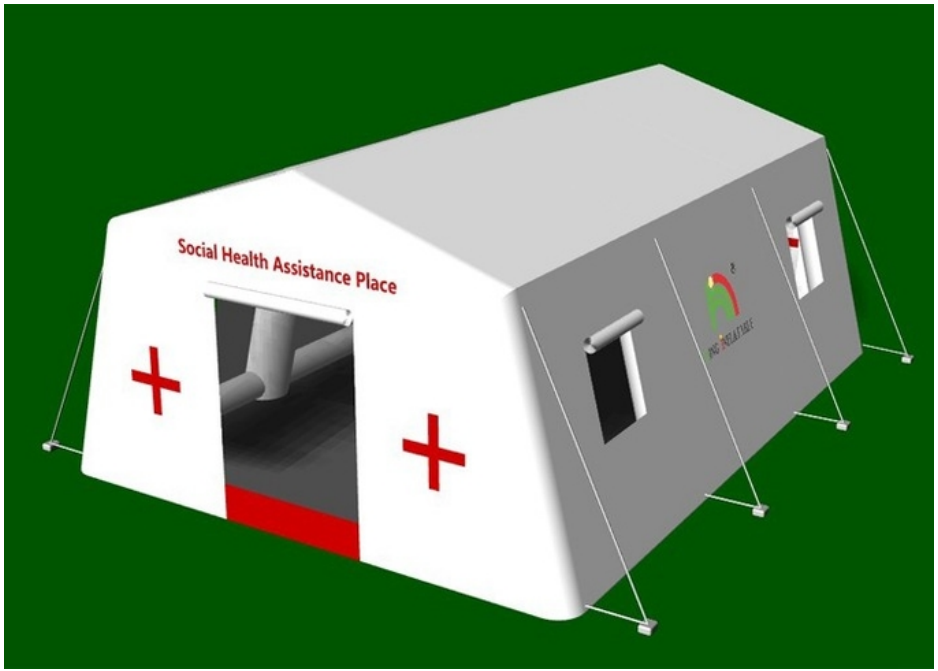

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.

Q: What happens if the Tent punctures?

A: Due to constant blown air, the tent can still be blown up and use as long as the damage area is not big. The damage can be repaired by sewing machine, and PVC vinyl tents can also simply be repaired by our repair kit (material patches and glue).

Q: Can you send me design sketch to confirm before production?

A: Yes. After you place an order, we can use your custom requirements to make a design sketch, and will start production after your confirmation.
