Our advantage:

1. Material: We used commercial grade fabric reinforced 0.6mm PVC Tarpaulin. King Inflatable material is the finest commercial-grade fabric re-inforced PVC available, Lead-free, and eco-friendly. all are used high strength and durable, waterproof and fireproof.
2. Quatic Welding: Hot air-welded seams for high quality and outstanding durability. It is the process used to fuse Plato material seams for years of trouble-free use. HA welding makes clean, strong seams with no unsightly glue marks or splits.
- 3). The product is a low cost, easy, and convenient to install and move. It is available in various great designs and a wide selection of bright colors.
- 4). We are a manufacturer of inflatable products, including tent, inflatable decoration, Christmas inflatable models, pneumatic boat, air-filled toys, air mattress, inflatable aircraft, advertising, pleasure toys, fire balloon, recreational facilities, air dancers, etc.
- 5). Customers from USA, UK, Australia, Vietnam, Japan, etc have already established agreeable and mutual benefit business relationship with us and highly appreciated our professional service.
