Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles, connector.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
- 4) Stable Connection System. It has anchored with heavy weight such as old tyre, sand bags etc for fixation.

Applications:

This inflatable floating island or water toy can be widely used as summer water park, river, lake, sea or family swimming pool, and water game parks, sun cold paradise amusement water park, for outdoor use, outdoor entertainment, backyard fun, festivals and carnivals, family use rental or resell business. and so on...

Advantages:

- 1) Double stitching detail & jointing clats:

Our sewing technology is double stitching with fourfold stitching inside and double stitching outside to make sure the products are strong enough;

- 2) Reinforced strips at joint:

At the bottom joint and each corner. So when the kids bouncer on the products, you do not need to worry about the safety at all. The bottom can bear the kids no matter how they play;

- 3) D-ring for fixation:

Each product will have thick D-rings or circle rings to fix the inflatable. It makes the inflatable steady enough;

- 4) YKK zipper:

We use YKK zipper, the famous brand in Japan. YKK zipper are specialized in its solidity and smoothness which decouple the normal zipper;

- 5) Triangle anchor strip and D ring:

In order to maximize the convenience of installing, a triangle anchor strip and a D ring is equipped in every 1.5 meter distance at the bottom of our products. It is also equipped in every 3.5 meters height on the two sides of our products for firmly fixed and against wind;

- 6) Stitching:

Double stitching is applied to all our products both inside and outside. We add double stitching on quadruple stitching or use extra patches on all the stress places such as the corner, the joint and the forced parts. Double-quadruple stitch everywhere plus extra reinforcements by PVC stripes.
