Description:

1. Raw materials: All of our materials are from the best domestic suppliers, Guangzhou Plato Plastic Co., Ltd. It consists of 3 layers: PVC coated + 1000D Net + PVC coated and with the characteristics of 1. waterproof 2. fire resistance 3. prevent UV 4. strong and durable.
2. We do double stitching (some parts are even 4 times stitching, triple stitched) and do reinforcement at each corner.
3. We have 10-year professional experience of making water slide, jumping/bouncy castle and water park.
4. Bulk order delivery time: Within 5 days to 7 days after the approval order.
5. Customized size, color, design and OEM, ODM logo all are available.
6. Customized detail function and logo for inflatable slide are accepted.
7. MOQ: One Set.
8. Sample: Acceptable, the more order, the better price.
9. After-service: 100% responsible for faults of quality under correct use.
10. Package: Strong PVC bag for Inflatable Durable Dry Slide and standard carton for air blower.

Advantage:

1. Material: Our Inflatable Castle Slide are made by Plato PVC 0.55MM (18OZ), which is standard material for commercial use. Customized color or design is acceptable.
2. Reinforced stitching: All seams are double stitched (triple to quartic stitched in sensitive parts) and reinforcement strips stitched on all inflatable mattress seams. These processes will be done by skillful workers. There will be some nylon braid straps stitched on the stress parts to make the pillars and mat stronger.
3. There will be some straps which are made by PVC material stitched on the bouncing / jumping mat in order to make the bouncing surface stronger.
4. There will be some D-rings put on the base of the trampoline for moving the bouncer or tying it on the ground with ropes to make the bouncer stable. Anchor points on the bottom for fixing the inflatable.
5. There will be a warning notice in English word and common sign for each inflatable item to protect the inflatable bouncer/slide.
6. Testing: all will be tested before packing.

FAQ:

1. What's the material use for the inflatables?
-- For Commercial Grade Inflatable, we use the PLATO 0.55mm PVC and First Class Baffle Inside to ensure the high quality and durability of our products.
2. What's the MOQ for your product?
-- 1 pc for PVC inflatables (commercial grade), 100 pcs for Residential Bouncer
3. May I get a sample?

-- Paid sample tested is accepted. We promise to refund the sample extra cost after ur bulk order

4. May I have my own logo and design for the inflatables?

-- Yes, of course. We own an experienced design team to offer u customized design. Your specific logo and design is accepted.

5. How about the quality?

-- After production, our QC Team will check the product one by one. Only Strict Quality Control can bring us regular orders

6. How do u pack the inflatables?

-- Plastic Film Inner Package and PVC/Cartron Outside package for carrying.
