Product Description**Inflatable Event Tent Human Body With Organs for Exhibition nylon fabric****Description:**

The product is a human organ-themed tent for the demonstration of related activities

It can be used as a medical science exhibition of Human Body structure, to let people know more directly about the internal organs of human body structure.

Meanwhile, this inflatable cartoon image, which is not too bloody and frightening to children, is very suitable for science exhibition

The product is equipped with a high-power fan to keep inflating, keep the shape of the tent full, using high color printing, visual effect is very good.

The product can be customized according to the size you need. The size in the form can be referenced. If you need customization, please contact us before placing an order
