Product Description

Portable 5m steel frame dome geodesic star tent with clear pvc cover for hotel

Hotel clear geodesic star dome tent with pvc cover

Unique accommodation, Create space for unique accommodation, personal living, studios and eco-tourism resorts

Fast Assembly – Our domes are affordable and the assembly time is fast. The costs of purchasing and installing geodesic domes for Glamping are typically recouped in as little as one season. They can be installed repeatedly and lasts 10+ years, ensuring your return-on-investment for years to come.

Eco Friendly – Geodesic Glamping structures can be built almost any location with minimal impact to the surrounding environment.

Energy Efficient – With the dome-shaped design, eco-living dome allows for effective air movement and constant temperatures, maximizing the sun's light and warmth meanwhile reducing cooling and heating costs.

Interior Design – You can add on a cozy bed, kitchenette, separate bathroom and an extra decking or complete the interior design your way.

Wide Application – Besides being a guest accommodation, our living dome tent is also applicable to school camps, remote and regional housing, garden studio, then mining and resources etc.

Excellent Safety – The unique geodesic tent structure provides excellent safety. The spherical dome tent can withstand the wind of 80-100 km/h, even in the harsh weather such as heavy snow, wind and rain. Geodesic dome construction in such soft building foundation (like the grassland, desert and beach) is also quite stable.

Description:

You can see the starry sky of the tent, using a circular arc shape made of a steel frame structure, which is stronger than ordinary tents, windproof and beautiful. You can see the scenery with no dead ends outside, because the steel frame structure is very strong and can be hung with star lights and other decorations. It is very suitable for outdoor restaurants, outdoor camping, events, celebrations, and holiday decorations. It can also be used as a hotel tent for accommodation. The top is covered with half of white PVC to ensure that the indoor light is suitable for rest and the outdoor scenery can be seen through the transparent PVC. The curtains can be closed when resting, which is very practical. Steel tents can also be used as small houses for pets. We have a customized size, 2.5 meters wide and 1.8 meters high. Even large pets can get in without worrying about the external fabric being damaged by pets. It is easy to replace.
