Product Description

5*3*1.5m pvc tarpaulin material Inflatable airbag stunt air bag landing ramp for bike stunt show

Descriptions:

The Landing airbag available for Bikeparks, Snowparks, FMX Tracks and Skateparks is a unique BAGJUMP airbag product that covers an entire landing to cushion your fall and at the same time also being able to ride away your trick if you land it. Try this landing pad and you will never go back to a traditional Foampit or one of the big type airbags. It feels like landing on a cloud or as some riders say: "Like a fresh powder landing". Pro riders from Nitro Circus like Travis Pastrana, Ryan Williams, Kurtis Downs, Brandon Schmidt, Jed Mildon, Todd Meyn, Gavin Godfrey love to practice on this brand new innovation which allows freestylers to progress in the safest way possible. king inflatable co., is able to offer this freestyle training tool for Ski and Snowboard in the Winter as well as for BMX and Mountainbike Freestyle in the summer. All year round use for Ski, Snowboard, BMX, Mountainbike, Scooter, Skateboard and much more.

All our airbags are produced according to the highest safety and quality standards. Our airbag material conforms with ASTM, EN71, and other standards. What is more, to avoid mistakes, we will make a 3D design as customers confirm the size, color and print can be changed till they say OK.
