

Airtight Portable Inflatable Disinfection Channel Tent With Atomizer Sanitizing Machine

Our Product Introduction

Basic Information

- Place of Origin: GuangZhou, China
- Brand Name: King Inflatable
- Certification: CE, UL, SGS, EN71, EN14960
- Model Number: King-it115
- Minimum Order Quantity: 1pc
- Price: US\$600~US\$1500/PC
- Packaging Details: Heavy-Duty PVC Tarpauline for Inflatables and Carton for air blower
- Delivery Time: 7-10 days
- Payment Terms: T/T, L/C, Western Union, Money Gram, Euro account, US dollar account
- Supply Ability: 500PCS Per month

Product Specification

- Material: Plato 0.65 Mm PVC Tarpaulin, 0.8mm PVC
- System: Airtighting System
- Color: White, Or Customized
- Printing: Logo/banner/company Name
- Accessories: Suitable Air Blower And Repair Kits
- Gurantee: 2 Years
- Size: Customized
- Workmanship: Professional Machine For Cutting, Printing & Sewing, To Ensure The Quality In All Process
- Highlight: **Airtight Inflatable Disinfection Channel, Portable Inflatable Disinfection Channel, Tarpaulin Inflatable Disinfection Channel**

Product Description

Airtight Portable Inflatable Disinfection Channel Tent With Atomizer Inflatable Sanitizing Tunnel

Airtight Portable Inflatable Disinfection Channel Tent With Atomizer Sanitizing machine

This is the airtight disinfection tent with atomizer machine, specially designed for the Coronavirus protection, it was airtight and will be made from the best commercial grade high durability fire-retardant 0.9mm PVC tarpaulin, which has 3 layers, two PVC coated sides with a strong net fabric inside. The shape, size, color printing for this tent can be customized with free 3D design service, should you have any questions, please welcome to inquiry and work together!

Item Name	Airtight Portable Inflatable Disinfection Channel Tent
Material	0.65 PVC tarpaulin from PLATO
Applicable temperature	PVC Tarpaulin (-30°C—65°C)
Size	Customized
System	Airtight
Inflate time	within 15 minutes
Printing	Digitally printing or Silk-screen printing is available, HD digital printing with exported oil coated
Accessory	Air blower(220-240v / 110-120v CE /UL different plug are available)
MOQ	1 pcs
Delivery time	7-15 working days
Shipping way	all over the world by sea, by air, by express, by train
Packing	Inflatable products: 0.6mm PVC durable bags Air PUMP: exported standard carton
Warranty	2-3 years
Certification	CE, EN14960, SGS, ASTM, UL, TUV, EN15649
Payment item	T/T (bank wire transfer), L/C, Western Union, Money Gram, Paypal, Escrow with 50% deposit.

Our inflatable medical tent advantage:

1. We add reinforcement strips for all our tents, so the items will be more durable.
2. For parts like anchor rings and handles, we use the big high-frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
3. High-temperature welding technique, or Double stitching throughout the unit with triple stitching.
4. Quadruple stitching in key areas inside the base of the unit.
5. Extra webbing reinforced strip on all the stress points and interior panels.

FAQ:

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on the design.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please use depending on actual scene.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless grade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

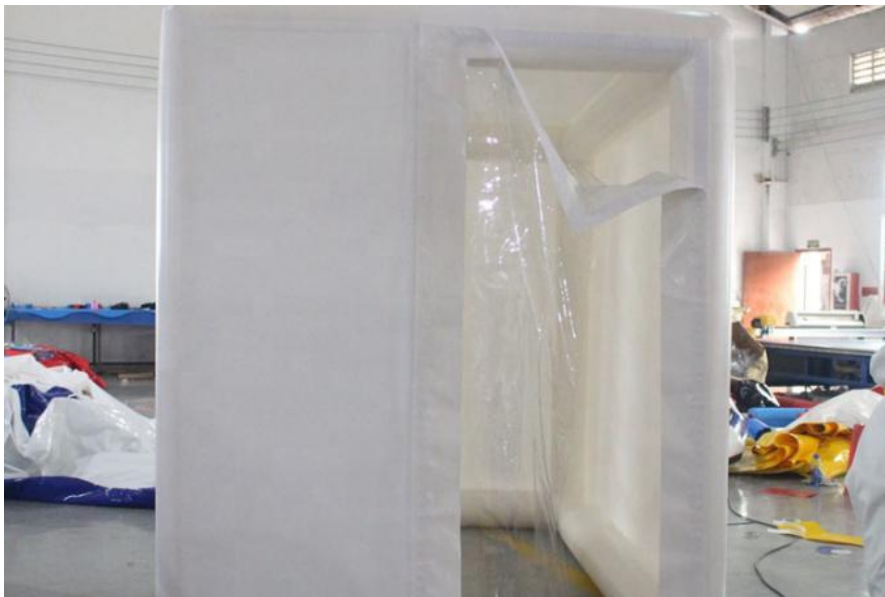

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.

Q: What happens if the Tent punctures?

A: Due to constant blown air, the tent can still be blown up and use as long as the damage area is not big. The damage can be repaired by sewing machine, and PVC vinyl tents can also simply be repaired by our repair kit (material patches and glue).

Q: What about the quality control?

A: Quality is our culture, our QC will care into every step of production process so that all products strictly complies to EN14960 and SGS Standards.
