1. For the finished products, we packed with strong PVC tarpaulin (same to the products). The PVC tarpaulin bag is durable enough to bear the impact during shipment. In order for you to find the products quickly, we have printed our company's logo on outside of package bags.

2. Blower or air pump are packed By PVC bag or carton which is suitable for shipment, also have been marked outside of the package, so that you can find them quickly and correctly.

3. Different countries have different voltage and different plugs, it will much appreciated if you can tell us what type plug you want, and then we will supply the correct plug to you.

FAQ:

Q: Why TPU more expensive than PVC?

A: TPU is better than PVC mainly by following features:

- 1). excellent abrasion resistance
- 2). outstanding low-temperature performance
- 3). excellent mechanical properties, combined with a rubber-like elasticity
- 4). very good tear strength

- 5). high elasticity& transparency
- 6). good oil and grease resistance
- 7). more mycete-proof

Q: What happens if the ball punctures?

A: The damage can easily be repaired with repair kit (material patches and glue).

Q: Will players get injured inside a Water ball?

A: No. This is one of the safest fitness activities in the world, because you are safely protected by an air ball.

Q: How to inflate Water ball?

A: The balls are inflated with air by an electric air pump. It takes minutes to inflate a ball.
