#### Descriptions:

1. Inflatable swimming pool is airtight product , not constant blowing type , It is only need to be inflated once . because they are welded by high frequency machine . Don't worry , the workmanship is also very good , strong sealing , what's more , reinforce a strip at the connecting place between the bottom material and the tubes , to bear a very big stress from water in the pool , besides , for the connecting side on the tube , we usually use one extra material to seal it again , to make the tube enough strong .

2. All the material is real plato material, PVC Tarpaulin has 3 layers ,with double coated side with a strong net inside , It can be waterproof and fire-retardant , with CE,EN14960,SGS,EN71,ROHS certificates , good quality and durable. Its thickness is generally 0.4/0.45mm , 0.55mm , 0.6mm and 0.9mm , For inflatable swimming pool , we usually use 0.9mm , real and best material from plato .You know , best material is very important for all the inflatable products .

3. In order to keep the water in the pool clean , if you need , we also can add a piece of covering cloth over the water , when you don't use the pool , you can put the covering cloth over the water by using ropes connecting D rings on the tube , in this way , the water is still clean .

4. In order to fix the pool to the ground , we will install enough D shaped rings on the tube , you can use some strong ropes to fix it , to make it enough steady , besides, the pool weight is very heavy , so it is very difficult to blow it away .

5. For inflating and deflating , you can find valve on the pool and connect the valve with air pump , meanwhile , connecting air pump and electricity power , turn on the power of air pump , then it can be inflated about 10 minutes ; For deflating , you only need turn off the air pump , take off the plug of valve and press inside the valve , then feel air out of the valve , it can be deflated about 5 minutes .

6. For Inflatable swimming pool ,Different sizes , shapes , colors , logo can be customized according to your demands . You know , all our products are OEM . Besides , Before the production , our designers will make a 3D design picture for your confirmation , it will be produced according to your needs , with best workmanship .

7. For shipping , If you only buy one piece or two , shipping by express is the best choice , you can get it at home about 10 days , our production time is about 5 days , the shipping time is about 5 day : If you want buy more , shipping by sea is the best choice .

8. Actually , the round pool is better than the square pool , because the round one can bear a balanced pressure from water , more durable . If you don't care about its shape , we suggest you should be choose the round pool .

9. If you have any needs about inflatable swimming pool , pls let us know its size , shape ,color , logo , we will offer a very competitive price based on good quality . You are always welcome to visit our company website and our factory . We hope we can build a long term cooperation relationship with you .

#### Application :

This swimming pool can be as private family amusement park for kids , you can buy some boats , bring kids more fun . If you are businessman , you can buy more pools and some other inflatable water products , such as water slide , water park , water ball ,water rollers etc , to sell them at your local . more products , cheaper price .

**Advantage:**

1. OEM accepted , different shapes, sizes, colors ,logo can be customized
2. Hot welding by high frequency machine
3. Very strong and safe
4. Long life , use 3 years at least
5. Digital printing and perfect artwork
6. Round pool can bear a bigger stress from water
7. High durability and best material , 0.9mm PVC Tarpaulin
8. Easy to get it repaired , only need spare material and glue
9. Cheap price and good quality
10. Best after-sale service
11. on-time delivery and safe shippment
12. Fixed by using ropes connecting D rings, enough steady
