5, Mosquito.insects.snakes etc can't get in it. The fan suck in and blower the bubble tent

6, Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent

#### FAQ:

1 Is it fire retardant ?

Yes ,our material is fire retardant and waterproof, if you have other special request, such as resist UV, Meet NFPA 701 standard etc. It also okay for us and we will purchase material accordingly, but price will more expensive.

2 Did it can resist strong wind ?

Yes,at frist the big tent weight is heavy,not easy to blow down or blow away.meanwhile there are many D-ring on the bottom and top for you to fix.Next our design meet the gas flow mechanics

3 The size is big /same,not suitable for me.could we can customize?

It is no problem. It can be customized according to your requirements, such as size, logo, color, printing etc. Of course, if you do not like the style please send your ideas to us, then we will design a new 3D model to you according to your ideas.

4 could I ship it by myself / Could you can help us to ship?

Yes.If you have forwarding agent in China, we will assist your agent to ship. If you have no forwarding agent, we can help you to ship. The best ship way is by sea, transportation time about 15-40 days according to different country. If urgent, by air is okay.
