Descriptions:

Airtight inflatable water toys/trampolines are made by high quality materials and advanced welding machine to ensure reach the top quality, just one time inflation will last for a long time keep air pressure enough for jumping even under extremely low or high temperature. These inflatables are usually used as toy games for water parks, open seas, lakes, pools, etc. Any sizes, shapes/designs, colors we can work them out according to customer requirements. We add reinforcement strips for all our slides, so the items have good airtightness and more durable. For parts like anchor rings, spring and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off. We install high quality air relief valve on our slides, so at hot noon it will release air to a safety air pressure level automatically.

Applications:

Airtight inflatable water toys/trampolines can be widely used as summer water park, River, pool and water game parks, sun cold paradise amusement water park, for outdoor use, outdoor entertainment, backyard fun, festivals and carnivals, schools and daycares, churches and youth groups, corporate picnics and functions, grand openings and promotions, family use rental or resell business. and so on...
