Professional free design custom-made to your need

Premium quality and service recognized by our customers.

Trade assurance and low-risk policy to guarantee your trade safety.

New products released every season to optimize your buying experience.

Excellent after-sale service to make sure of your satisfaction.

D ring ,Wind ring. There are many D-rings on the surface and the bottom of the tent, we can use the strings connect with the stakes or the sandbags to make the tent more stable, avoid being blown down by the wind.

Our factory can supply you various kinds of tents, like cube tent, dome tent, lunar tent, bubble tent; or event tent, wedding tent, party tent, tennis tent, paintball tents, medical tent, military tents, etc.

Product descriptions:

Inflatable event tent is a new and popular products, and with the other advantages such as good appearance, bright color, much cheaper than concrete buildings, moved around easily and conveniently, so it will attract people's interest, and it will be a perfect eye catching product for you.

Inflatable event tent includes the following characters.

- 1, Water proof, anti-UV and fire resistant, can be used in the rainy and sunny days. White proof can reflect most of sunlight and heat, cool down the inside.
- 2, Many D rings around the bottom and top as anchors with rope to tie a weight, in case of strong wind to blow it away.

3, Inside with hooks for hanging something, air condition cable, lights or small things, each hook for ≥ 10 kgs, top no more than 50kgs.

4, If under the sun, must not inflate it 100% full, because the air inside would expand to make all the joints too big pressure to stand. 90-95% full is the best. In the night, the temperature would turn low, and cold contract, the tent will become soft, but it's ok, it can stand it self.

5, Reinforced welds, inside the strips is formed by high frequency machine, fully join together with the tent.
