Descriptions:

Water Roller is also named Inflatable Water Roller, Water Roll Ball, Walk-on-Water Roller etc. Water Roller is very popular between children and adults for sporting and recreation. We can produce all kinds of the Water Roller according to your requirements. Water Roller Products Explain: Climb inside this giant sphere (cylinder) and rock-and-roll across the water. The inset cups on the outer surface help grip and paddle your way through the water as you spin the ball.

Advantages:

- 1, All the material is from PLATO CHEMICAL ,the best and biggest raw material supplier in China.
- 2, All the water items are sealed by advanced hot air welding machine imported from Japan which has stable temperature to ensure the goods not over sealed or miss sealed, so we can offer you very good jobs.
- 3, Any logo ,color,design available.
- 4, The material will be cut by machine not by hand, so we can offer you a fast delivery.
- 5, durable, soft playing feeling, repairable.
- 6, easy assemble, move, put it away, in different occasions.
- 7, once broken, it's easy to repair, get it fixed and working again.
- 8, come with pump , glue and spare material.

FAQ:

Q: Why TPU more expensive than PVC?

A: TPU is better than PVC mainly by following features:

- 1). excellent abrasion resistance
- 2). outstanding low-temperature performance
- 3). excellent mechanical properties, combined with a rubber-like elasticity
- 4). very good tear strength
- 5). high elasticity& transparency
- 6). good oil and grease resistance
- 7). more mycete-proof

Q: What happens if the ball punctures?

A: The damage can easily be repaired with repair kit (material patches and glue).

Q: Will players get injured inside a Water Roller?

A: No. This is one of the safest fitness activities in the world, because you are safely protected by an air ball.

Q: How to inflate Water Rollers?

A: The balls are inflated with air by an electric air pump. It takes minutes to inflate a ball.
